GOVERNMENT OF INDIA
COAL
LOK SABHA

UNSTARRED QUESTION NO:1385
ANSWERED ON:24.11.2016
Production of Coal
Siddeshwara Shri Gowdar Mallikarjunappa

Will the Minister of COAL be pleased to state:

(a) the grade, quantity and value of coal produced from various operational mines during the last three years, year-wise and its value in international market;
(b) the income earned by the Coal India Limited (CIL) and its subsidiaries during the said period;
(c) the measures taken by the Government to produce more quantity of high grade coal;
(d) the quantity and quality of coal supplied to thermal power stations run by National Thermal Power Corporation Limited (NTPC) and also by private sector in Karnataka as per fuel supply agreement during the said period; and
(e) the steps taken to provide adequate quantity of coal to these stations in that State to comply with fuel supply agreement?

Answer

MINISTER OF STATE (INDEPENDENT CHARGE) IN THE MINISTRY OF COAL, POWER, NEW AND RENEWABLE ENERGY AND MINES (SHRI PIYUSH GOYAL)

(a) Grade and quantity of coal produced from various operational mines during the last three years, year-wise is enclosed as Annexure.

The value of coal in international market cannot be determined since Indian Coal is not exported and the quality also differs from the coal available in international market. However, the net sale value as per audited accounts for the last three years of CIL (including Subsidiaries) are as follows:

2015-16 : Rs.75644.27crs
2014-15 : Rs.72014.62 crs
2013-14 : Rs.68810.02 crs

(b) The total net revenue earned during last three years by CIL (including subsidiaries), as per audited accounts are as follows:
[Rs. Crore]

Particulars	2015-16	2014-15	2013-14
Net Sale of Coal	75644.27	72014.62	68810.02
Other operating revenue	2365.85	2105.45	1797.50
Other income	5728.45	6570.64	7171.88
TOTAL	83738.57	80690.71	77779.40

(c) CIL and its subsidiaries are adopting the following steps to produce more quantity of high grade coal:-

i. Deployment of more number of Surface Miners to facilitate selective mining.
ii. Fifteen nos. of washeries have been planned for installation with a capacity of 112.60 Million tons.
iii. Selective mining of bands of more than one meter thickness.
iv. Appropriate positioning of OB and coal benches to avoid contamination.
v. Scrapping/cleaning of coal benches before blasting.

(d&e): At present, NTPC does not have a functioning power plant in Karnataka. Private sector units in Karnataka are not getting coal supply under FSA from CIL. However, plants of Karnataka Power Corporation Limited (KPCL) have been offered coal from CIL through regular and bridge linkages. In addition, six Sechedule II (operating) coal mines were allocated to KPCL in March, 2015.
